Referral Criteria for Outpatient Occupational Therapy

Inclusion

- Aged 18 or over (with exception of transfer from paediatric services)
- Living within Oxfordshire
- Surrounding counties if patient able to travel to OCE
- Neurological diagnosis (including FND)
- Patients referred via Neurology Clinic
- MS patients requiring fatigue management programme
- Patients who have a change in their occupational performance who require goal focused therapy
- Patients who are able to attend the unit

Exclusion

- Patients who only require assessment for equipment provided by Adult Social Care
- Patients requiring intensive home-based rehabilitation / therapy as we are not a community team
- Patients with a primary diagnosis of childhood developmental conditions such as apraxia, dyslexia and autism
- Patients who are currently using substances such as drugs / alcohol as other services will need to address their needs first
- Patients with a known safeguarding risk where those risks cannot be safely managed
- Patients with a primary diagnosis of Alzheimer's or dementia
